This action is in response to Amendment filed January 21, 2004. All the applicant's arguments were considered.

#### ***Allowable Subject Matter***

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 20, the prior art of record fails to teach or suggest an optical film with a hard coat layer of the claimed material and the claimed thickness, a first high refractive index layer with the claimed refractive index and thickness, a second high refractive index layer with the claimed refractive index and the claimed thickness and a low refractive index layer with the claimed refractive index and the claimed thickness disposed in order on at least one face of a substrate.

The remaining claims depend from claim 1 and are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

Applicant's arguments, see Amendment, filed January 21, 2004, with respect to claims 1-20 have been fully considered and are persuasive. The rejection of claims 1-20 has been withdrawn.
